DATE MAILED: 06/27/2005

Please find below and/or attached an Office communication concerning this application or proceeding.

Office Action Summary	Application No. 09/961,237 ✓	Applicant(s) CHAMBERLAIN, LYLE JOSEPH	
	Examiner Gregory M. Desire	Art Unit 2625	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 25 February 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-24 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 1,5-7,11-13,17-19,23 and 24 is/are rejected.
- 7) ☒ Claim(s) 2-4,8-10,14-16 and 20-22 is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☒ The drawing(s) filed on 20 September 2001 is/are: a) ☒ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
2. ☐ Certified copies of the priority documents have been received in Application No. _____.
3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).
- * See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

1. This action is responsive to communication filed 2/25/05.

Response to Amendment

2. Applicant's arguments filed in view of 35 U.S.C 102 have been fully considered but they are not persuasive. See response to arguments below.

Response to Arguments

3. Applicant argues (remarks page 1 line 30 – page 2 line 2) Reasoner fails to disclose, teach or suggest a processor, coupled to the imager and illumination sources, for thresholding the image data obtained from the imager for controlling the illumination sources. This argument is not persuasive because it is the position of the examiner Reasoner does disclose a processor coupled to the imager and illumination sources (note col. 5 lines 18-28, cites processor coupled to system for output), for thresholding the image data obtained from the image for controlling the illumination sources (examiner refers MPEP 2114, intended use).

4. Applicant argues (remarks page 2 lines 19-21) Reasoner does not disclose, teach or suggest bounding boxes to identify the location of a desired physical feature in the threshold image. This application is not persuasive because it is the position of the examiner Reasoner does disclose bounding boxes to identify location of desired physical feature in the thresholded image (note col. 4 lines 64-67, col. 5 line 39 and col.

Art Unit: 2625

6 lines 1-3, examiner interprets light pattern bounding and illuminating the label area as bounding boxes to identify location of features in the thresholded image).

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

6. Claims 1, 5-6, 7, 11-12, 13, 17-18, 19 and 23-24 are rejected under 35 U.S.C. 102(e) as being anticipated by Reasoner et al (6,634,553).

Regarding apparatus, method, article of manufacture and system claims 1, 7, 13 and 19 Reasoner discloses,

A picker assembly (fig. 1 block 10 in connection with col. 5 line 1);

Illumination sources disposed at the front of the picker assembly for illuminating an object (note col. 5 line 4-6, led illumination source);

An imager disposed on the front of the picker assembly for gathering image data of the object (note col. 5 lines 8-9, ccd is the imager);

A processor, coupled to the imager and illumination sources (note col. 5 lines 18-28, cites processor coupled to system for output), for thresholding the image data obtained

Art Unit: 2625

from the imager and for controlling the illumination source (examiner refers MPEP 2114);

Wherein the processor uses bounding boxes to identify the location of a desired physical feature in the thresholded image (note col. 4 lines 64-67, col. 5 line 39 and col. 6 lines 1-3, examiner interprets light pattern bounding and illuminating the label area as bounding boxes to identify location of features in the thresholded image).

Regarding apparatus, method, article of manufacture and system claims 5, 11, 17 and 23 Reasoner discloses,

Wherein the desired physical feature comprises a top left intersection of a vertical and horizontal member of a cartridge cell within a tape library system (note col. 4 lines 43-44, array comprises location in a data cartridge).

Regarding apparatus, method, article of manufacture and system claims 6, 12, 18 and 24 Reasoner discloses,

Wherein the position of the intersection relative to the image is used to calibrate the physical position of the picker assembly (note col. 3 lines 62- col. 4 line 7, picker is moveable directed by a control system).

Allowable Subject Matter

7. Claims 2-4, 8-10, 14-16 and 20-22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
8. The following is a statement of reasons for the indication of allowable subject matter for claims 2, 8, 14 and 20. The prior art fails to teach the specific limitation of the processor locating bounding box as claimed. These features, in combination with other limitations, are not taught in the prior art. Claims 3-4, 9-10, 15-16 and 21-22 depend on claims 2, 8, 14 and 20. Therefore are also objected.

Conclusion

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
